

【Outline of UL ATC】

Estimated completion date April 25, 2019
Address 1-3-19,20 Neura-machi, Miyoshi-shi, Aichi
Access 2.0 km (6 minutes by car) from Kurozasa Station, Meitetsu
Toyota line
3 minutes by car from Miyoshi IC, Tomei Expressway

UL ATC

Facilities and Equipment

-scheduled to start operating in June, 2017

Facility	Number	Tests available	Products
3 m anechoic chamber	2	general EMC(EMI/EMS) tests, tests to radio standards, automobile standards and specifications of automobile manufacturers, Tri-Plate tests	IT equipment, in-vehicle devices, radio equipment
EMC anechoic chamber for automobiles	4	tests to automobile standards and specifications of automobile manufacturers	in-vehicle devices
Shielded room	2	general EMC(EMS)tests, tests to radio standards, automobile standards and specifications of automobile manufacturers	IT equipment, in-vehicle devices, radio equipment
Electrical testing room	3	electrical tests to LV123, LV124, LV148, ISO 16750-2 etc., EMC tests to ISO 7637, tests using TEM/G-TEM Cell	in-vehicle devices
Environment testing chamber	1	Water-proof tests, dust-proof tests, vibration tests	in-vehicle devices

Interoperability 1
testing room

Interoperability tests

in-vehicle devices

Product Scope

Industry
automobile

Products

car-audio systems, keyless entry systems, smart entry systems,
Automotive Systems and Components, antenna for automobiles,
inverters, DC/DC converters,
dc/DCbe

ITE(multi-media equipment)

PCs, wireless LAN, wireless LAN cards, Bluetooth, wearable equipment
